25X1

1. In addition to the existing Lvov - Przemysl (Poland) railway line, a new line is under construction on the Soviet side of the frontier. The new line will run north of the existing line and will have standard and Soviet-gauge tracks. It will cross the San River north of Medyka by an iron bridge which is nearing completion. Topographical work is in progress on the Polish side of the frontier in the Buszkowice area (3 km northeast of Przemysl). In that area were observed small poles which had been placed approximately 2 km east of Buszkowice to mark the projected course of the railway line.
2. The existing first-class highway from Lvov through Yanov, Yavorov, Krakovets, and Radymno to Jaroslaw (Poland) is to be made into an asphalted autostrada. Work is now in progress in the Yavorov area.
